- the proposed expansion of SOFF Readiness support to 62 countries in total, including all countries of the initial set of UN Early Warnings for All initiative countries
- the SOFF regional programming approach, including in the Pacific, Caribbean, Indian Ocean, Atlantic SIDS and African sub-regions to take advantage of economies of scale, and of existing regional programs, structures and mechanisms.

### Recommends

- SOFF to closely engage with the Early Warnings for All partners, including actively contributing to the planned in-country workshops
- SOFF to closely engage with the partners of the Water at the Heart of Climate Action initiative and the Global Shield pathfinder countries
- the SOFF Secretariat to closely work with the UN Climate Action Team to facilitate coordinated in-country action and the mobilization of resources for investments in the latter parts of the value chain
- the SOFF Implementing Entities to integrate SOFF operations into their broader country support activities, crowding in their own resources or resources from the multilateral climate funds.

**Requests** the SOFF Secretariat to share these recommendations with the Steering Committee and to publicly disclose the recommendations after the Steering Committee meeting on the SOFF website.

# Decision 4.2: Adoption of recommendations on SOFF Operation policy
